

Morrison & Co strengthens its European team with leadership appointments

1 December, 2022

London, Paris: H.R.L. Morrison & Co ("Morrison & Co") today announces the appointment of Pia Lambert as Executive Director, to build out the firm's presence in the region.

Ms Lambert joins Morrison & Co after more than nine years as Infrastructure Director at AXA Investment Managers. She has wide experience in infrastructure investing, including asset management, board governance, business planning and transaction execution.

During her career, Pia has successfully worked on over €2bn of European equity investments from origination to deal execution, and built expertise in the digital and energy transition sectors. She has been involved in the development and fundraising for new products, to support and drive the expansion of the business and its client base.

Vincent Gerritsen, Partner and Head of UK and Europe, Morrison & Co, said, "We are delighted to welcome Pia to our team, to continue our recent growth and capitalise on our robust pipeline of opportunities and our growing investor client base across Europe."

Morrison & Co is an entrepreneurial and purpose-driven infrastructure specialist, with over three decades of outstanding performance, and a commitment to investing wisely in ideas that matter through responsible and sustainable investing.

Commenting on her appointment, Ms Lambert said: "I'm very excited to join Morrison & Co and utilise my expertise to build on its firm foundations and track record at a time when the role of private, long-term capital to deliver essential services is in strong demand."

In the past 15 years, Pia has worked primarily in the real assets sectors, including private equity, real estate and unlisted infrastructure. Pia has been a Board director of several landmark infrastructure companies across Europe, including Stockholm Exergi, a Swedish district heating firm, the Dunkerque LNG terminal in France and Atlandes, a toll road in France. Pia commenced her career at CBRE Investment Management in the private equity team and Generali Real Estate in the Corporate Finance department.

Pia's appointment follows a series of strategic hires to support Morrison & Co's expansion into the UK, Europe and North America, which include Charles van Tuyckom, who joined last month November from Arup as Sustainability Manager, based in the London office; Lauren Beshore, who joined the New York office in July as an Investment Director; Keith Driver, who has been

leading client relationships as Executive Director, based in London, since April 2022; Joshua Tan, who relocated to London as Investment Manager, having worked at the firm in Sydney for almost three years; and Mark Bedford, former senior director and board member of Microsoft UK, who has been a member of the firm's network of sector experts since the start of the year, providing strategic counsel to the digital infrastructure businesses within its portfolio.

About Morrison & Co

Morrison & Co is a global infrastructure investment management specialist, founded in 1988. We manage multiple client mandates, with total funds under management of €16.8 bn (£14.4bn) at 31 October 2022. Morrison & Co is a pioneer in innovative infrastructure investing, supporting businesses that help enhance the lives of local communities. We are set apart by a management style that integrates deep industry specialisation with financial and transactional expertise. Our investment decisions are supported by research and high-conviction beliefs in long-term trends that bridge business cycles including global decarbonisation, ageing populations, growth in data and related infrastructure, global mobility, urbanisation and expanding social infrastructure requirements.
